The *Journal of the History of the Neurosciences: Basic and Clinical Aspects*, the official organ of the society, is published by Taylor & Francis (formerly by Swets & Zeitlinger). Now in its 15th year, the Journal provides a forum for investigations in the field of neuroscience history, as broadly defined, including the history of basic, clinical, and behavioral neurosciences, ancient and non-western topics, and significant individuals, events, and technical advances. ISHN is a focal point for those interested in neuroscience history and offers, through its journal and annual meeting, opportunities to contribute to this rapidly growing field.

STUDENT MEMBERSHIP FOR THE CALENDAR YEAR JANUARY-DECEMBER 2006 IS FREE OF CHARGE. Student membership in the ISHN includes all privileges of membership and all mailings *except* an annual subscription to the *Journal of the History of the Neurosciences*.
