The extent of each member's involvement in the *ISHN Membership Directory* is a matter of individual choice. The Directory lists each member's name and city, state/province, and country. Any further information (e.g., street address, occupation, telephone number, research interests) to appear in the Printed and/or Online editions of the Directory is included at the member's discretion. The Directory includes only dues-paying members of the *International Society for the History of the Neurosciences* and is created solely for the purpose of networking among ISHN members. Any other use, including solicitations, announcements, mail offers, etc., is strictly prohibited without prior approval from the President of the ISHN.

E-mail addresses are no longer hot-linked (one cannot click on the e-mail address and send a message), in order to try to frustrate Web harvesters which collect addresses for Spamming. Instead, each e-mail address is separated into its “account” and “domain” components separated by spaces and the word “at” in quotation marks. These can be cut-and-pasted into a New e-mail message; the separating spaces should be removed and “at” replaced by “@” (without quotation marks) before Sending the message.
